

MORCLEAN

AutoCar Industrial Drive Through Brush Wash Systems

Industrial Car Wash System

Morclean have now launched an advance top of the range Industrial Car Wash System with three brushes.

This system has been developed to meet all the different needs of the Industrial Car Washing sector. It combines strength, reliability, simplicity and above all, great versatility, to provide the perfect solution to all your car wash needs.

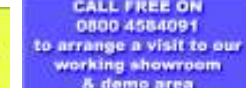

For Vehicle Fleets comprising of cars and light commercials, the Morclean Autocar Drive Through Brush Wash System incorporates automatic rollover brush wash design and water recycling technology.

The Morclean Autocar System is designed around the clients fleet. Morclean also design and specify all civil works, interceptors, water reclaim and discharge and drainage. Our team of technicians will be pleased to offer all the necessary advice.

All Morclean Brush Wash and Car Wash Systems can be used in conjunction with a Morclean Water Reclaim System. These cost effective systems collect waste water in an Interceptor and then recycle it for later use.
