

Health and Safety Vacuum Cleaners

NA 3400

MORCLEAN

Morclean safety variants comply with current European safety standards for working in ATEX Type 22 environments with explosive dust. And with features like 70 litre stainless steel container, robust steel frame and tilt or lift-off container emptying, your work becomes more efficient, as well.

Features

- Approval for work with explosive dust
- Washable M-Class PET Fleece filter element
- Tilt or Lift-Out container emptying.
- Auto On/Off
- Speed governor
- Silent operation
- AntiStatic feature
- SoftStart

Benefits

Work safely in ATEX Type 22 environments, containing explosive dust.

Easy and economical maintenance

The 70 litre stainless steel container can be easily tilted in the frame or lifted off for emptying.

In combination with electric tools, the machine starts and stops automatically when you start or stop the tool.

To reduce suction performance and to prevent the power tools sticking to the working surface.

A very quiet machine for a comfortable working environment.

A conductive discharge link between the vacuum inlet fitting and earth. The conductive hose and fittings prevents sparks or shocks.

A gentle motor start-up reduces the starting current for easy starting on limited electrical systems.

Technical data

Power source	1-phase Elec.
Air flow rate	3400 l/min
Vacuum	250 mbar
Power Pmax	1500 W
Power Pic	1200 W
Weight	26 kg

Working noise	57 dB (A)
Container volume	70 l
Dimensions LxWxH	605 x 580 x 970 mm
Mains connection	230/1 ~/50-60 V/~ /HZ
El cable	7,5 m
