

Street BackVac

This Backpack Vacuum cleaner opens up a new concept in the way you collect litter or contaminated materials, like dog faeces.

This machine is the ideal solution to cleaning in the most inaccessible areas. This machine is powered by the new Honda GX25T engine, a new concept in low noise 4-stroke engines. This machine can hold up to 35 litres of rubbish which is collected through either a 5" or 4" vacuum hose (3" vac hose is used for collecting dog faeces). This now allows the operator to go literally anywhere and collect rubbish.

Engine	4 Stroke - Overhead cam, Single Cylinder
Displacement	25 Cm3
Bore and Stroke	35.0 x 26.0 mm
Ignition System	Transistor Magnito
Engine Oil Capacity	0.08 Ltr
Waste Capacity	35 Ltr
