

## Tool Kits, Accessories and Consumables

Across the range of Morclean vacuum cleaners we offer a choice of standard accessory kits from 32, 38 & 51mm options. Also available is the anti-static tool kit and an enormous selection of accessories in all sizes covering many applications.

Images of the variety of standard filters, high efficiency filters and HEPA filters are displayed alongside the motors and paper bags also found across the range.

It is not practical to have available an image of every spare part for such an enormous range of machines so if you cannot see it you can contact us where we would be happy to identify the parts that you need irrespective whether you bought your vacuum cleaner yesterday or 50 years ago!
