

**MORCLEAN**

# Hot water high-pressure cleaner

## XDL Specialist 3PH/60Hz

60Hz

Panel with analogic controls

Easy access to main mechanical components

Linear pump with separate unloader valve

Water cooling\* (stainless steel coil) 4 poles electric motor

Integrated elastic joint\*

- 4 poles electrical motor (1450 RPM) with water cooling\*\* (with stainless steel coil) for best thermal dissipation, lower working temperatures and longer lifetime for mechanical components (motor & pump) - **double roller bearing** and **integrated elastic joint\*** for best pump coupling, easy maintenance and **pump roller bearing protection**
- Crank shaft linear pump with ceramic pistons, brass head, stainless steel valves and separate unloader valve. Main pump components are interchangeable with other pump manufacturers.
- Easy access to main mechanical components like motor, high pressure pump, gas oil pump
- High (>90%) thermal efficiency burner, for better environmental protection
- Auxiliary motor for burner air cooling and mechanical two way fuel pump
- Low fuel lamp
- Adjustable detergent delivery built-in tank for indirect suction
- High sensitive stainless steel sensor with temperature regulation gauge
- LSP: Late Shut down Protection 24V
- Impact and weather resistant, single piece polypropylene cover
- Ergonomic handles and two side accessories holder

### OPTIONAL

- Hose reel with brake

	<b>XDL Specialist 3PH/60Hz</b>
Product No.	8.621.0910
Voltage	380V
Wattage	8700W
Operat. pressure / max.	30-200 Bar
Delivery rate	540-1080 Ltrs/h
Motor Speed	1700 rpm
Max temp. inlet / outlet	40°C / 140°C
