

MORCLEAN

Hot water high-pressure cleaner

XDT Specialist/60Hz

60Hz

Easy access to main mechanical components

Panel with analogic controls

Pressure accumulator

Linear pump with separate unloader valve

Integrated elastic joint*

*Elastic joint not available in 97 version
**Pressure accumulator not available in 55 & 73 versions

- 4 poles electrical motor (1450 RPM) with water cooling (with stainless steel coil) for best thermal dissipation, lower working temperatures and longer lifetime for mechanical components (motor & pump) - **double roller bearing** and **integrated elastic joint*** for best pump coupling, easy maintenance and **pump roller bearing protection**
- Crank shaft linear pump with ceramic pistons, brass head, stainless steel valves and separate unloader valve.
- Main pump components are interchangeable with other pump manufacturers.
- Pressure accumulator** for hose and gun vibrations prevention
- Easy inspection, in line, wide filtration filter
- Mechanical infinite adjustable anti-scale device with refilling tank
- Easy access to main mechanical components like motor, high pressure pump, gas oil pump
- High (>90%) thermal efficiency burner, for better environmental protection
- Auxiliary motor for burner air cooling and mechanical two way fuel pump
- Low fuel lamp
- Adjustable detergent delivery built-in tank for indirect suction
- High sensitive stainless steel sensor with temperature regulation gauge
- LSP: Late Shut down Protection 24V
- Impact and weather resistant, single piece polypropylene cover
- Ergonomic handles and two side accessories holder

OPTIONAL

- Hose reel (handles up to 40m hose)

	XDT Specialist 60Hz
Product No.	8.622.0906
Voltage	380V
Wattage	8700W
Operat. pressure	30-200 Bar
Delivery rate	540-1080 Ltrs/h
Motor Speed	1700 rpm
Max temp. inlet / outlet	40°C / 140°C
