

Health & Safety Vacuum Cleaners

Dynamics 840

MORCLEAN

Dust Class Type 22 & Zone 2

Explosive dust is classified as an ATEX type 22 application and equipment made to handle it is specifically designed to prevent explosions.

Elec. 3-phase / Standard

High performance vacuum cleaner for continuous use with two long lasting three-phase drives and two side channel pumps.

Features

- Stationary vacuum system
- Twin motor
- Micro processor control
- Filter cleaning system
- Large container volume
- Container with set-down mechanism
- Sturdy steel construction
- Rubber cable

Technical Specification

POWER SOURCE
AIRFLOW RATE ltr/min
VACUUM mbar/KPa
POWER Pmax
POWER PIEC
MAINS CONNECTION V/-/Hz
WORKING NOISE dB(A)
CONTAINER VOLUME ltr

Benefits

Don't bring the machine to the dust - bring the dust to the machine

For strongest suction power: Allows long tube system.

Controls the system - especially in combination with lots of suction places

Powerful filter cleaning system using compressed air to blow the dust out of the filter. Ensures constant high suction power.

Takes longer than expected before you have to empty the container

Convenient system - makes emptying simple and comfortable

Built for use under tough conditions

The robust and professional quality
