

Wet & Dry Vacuum Cleaners

MV 20, 25, 30, 45 & 50

Built without compromise to offer years of reliable service, this versatile range of industrial wet and dry vacuum cleaners will happily take on the toughest jobs.

There is a model in this range perfectly suited to your requirement.

You have the choice of dent proof injection moulded or non-magnetic stainless steel canister, four castor chassis or heavy duty tubular caddy and a choice of single or double motors on all sizes of canister.

The MV 50 features the extra advantage of pivoting tip action water emptying into a drain or WC.

Features

- Twin fan bypass cooling motor
- One or two motors
- Thermal switch protection against overheating
- Virtually indestructible thick section injection moulded plastic motor head
- Efficient float ball wet shut off
- Net filter to float cage to prevent motor damage
- Two stage dry filtration - Disposable paper bag or reusable cloth bag
- Optional high efficiency cloth filter
- Optional Anti Static filter assembly (for models with Stainless Steel canister only)
- The MV 30, 45 & 50 can be fitted with our bolt on fixed floor tool
- Hose entry will accept 32, 38 & 51mm hose and tool kits
- MV 30 & 45 can be fitted with dump valve or drain hose and stopper for quicker wet emptying
- Antistatic hose entry and 38mm conductive tool kit to dissipate build up of nuisance static. Available for models with stainless steel canister at time of order or as a retro fit.

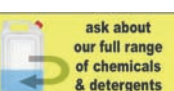

Please refer to current price list for exact specification for each model
