

Dry Vacuum Cleaners

MV 65 & 110

The ultimate in heavy duty yet mobile industrial vacuum cleaners, using the most modern hard wearing materials and constructed for a long, trouble free working life. This range of machines is built around an 18 inch (455mm) heavy gauge high quality stainless steel canister carried on a tough electrostatically coated tubular steel caddy. To ensure a long life and ease of movement even when full the caddy is fitted with two large 200mm diameter rear wheels and two 75mm solid rubber tyred castors. The exceptional suction power of these machines is provided by either two or three 1,000 Watt bypass cooling vacuum motors of the very latest design, housed in a rigid steel electrostatically coated motor head. Each motor is switched individually so that the operator can select the amount of performance required.

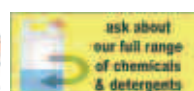

Features

- Twin fan bypass cooling motor
- Choice of two or three motors
- Thermal switch protection against overheating
- Double filtration - disposable paper filter and cloth filter
- Optional high efficiency cloth filter
- Optional Anti Static filter assembly
- Heavy gauge non-magnetic 304 grade stainless steel canister
- Tough tubular caddy with large wheels and castors
- Carrying handles on side of canister
- Canister detachable from caddy
- 10 metre see through discharge hose
- Hose entry accepts 32, 38 and 51mm hose and tool kits (38 & 51mm preferred)
- Anti static hose entry and 38mm conductive tool kit to dissipate build up of nuisance static. Available at time of order or as a retro fit.

Technical Specification	MV 65	MV 110
MOTOR	2 x 1000w max 1600w mean 3 x 1000w max 2400w mean	
POWER	230/110v 50/60 Hz	
PERFORMANCE	2 motors max airflow 82 ltrs/sec 3 motors max airflow 113 ltrs/sec max vacuum 2 & 3 motors 2,200 mm	
CLEANING RANGE	28.5 metres 94 feet	
CAPACITY LITRES	56	88
DIMENSIONS (H X W X D mm)	895x540x610	1060x540x610
WEIGHT KG	29.5/32	30/32.5
